CAT. #3742 — SENNHEISER® RS 120 WIRELESS HEADPHONE SYSTEM

The lightweight RS 120 lets you enjoy freedom of movement without cumbersome cables. The headphones come complete with an easy-to-use recharging system. After use, simply place the headphones onto their convenient transmitter base station and they will automatically recharge for the next use. Its easy to set them up too! Just plug the transmitter in, and connect the audio cable to an analog output (RCA or headphone plug), its that simple.

The transmitter also features a convenient automatic on/off circuit: when you activate your audio source, the transmitter powers on without switches or buttons...easy! Five minutes after your turn off your audio source, the transmitter shuts off to conserve power.

The three position channel selector allows you to choose an interference-free channel for clear reception--- even through walls and ceilings with a range of 100 meters (328 ft).

CAT. #	ITEMS
#3742	Sennheiser RS 120 Wireless RF Headphone

CAT. #3679 — SENNHEISER® 900 TV LISTENING SYSTEM

The Set 900 system lets you enjoy sound no matter what you are doing. If you are in a theater or a concert hall equipped for infra-red transmission, adjust the volume to enjoy the event in optimum sound quality. At home, connect your Set 900 to your TV or hi-fi system. Cordless listening guarantees excellent sound that can be individually treble-emphasized while separately switching the microphone amplification on the receiver. The activated microphones also improve your ability to hear ambient noises such as the ringing of a telephone while watching TV.

- Three selectable hearing settings on the transmitter.
- Infra-red audio transmission for cordless mobility to 12m (40 ft.).
- Foldable receiver and supplied carrying case.
- Large, ergonomic volume control/balance control on receiver.
- Automatic on/off function; 2.3 MHz/2.8 MHz operating frequency.
- Lithium-polymer rechargeable battery: 12 hours of battery use.

CAT. #3688-D — TV EARS® DIGITAL SYSTEM

The TV Ears Digital is specifically designed to give people who wear hearing aids the added digital clarity, increased power, and the durability they require to fully enjoy TV. The TV Ears Digital replaces the Original Plus and Professional system with an improved system that offers more power, clarity and connectivity.

- 95 KHz frequency transmission.
- Universal transmitter uses Infra-red technology.
- Voice Clarifying circuitry.
- Balance, tone and volume control.
- Rechargeable battery that charges in transmitter cradle.
- Wireless, lightweight headset (2 oz.).
- Self-molding ear tips.
- Expansion Jacks.

System includes: digital transmitter, headset with rechargeable battery, 6 ft. analog audio cord, 6 ft. optical audio cord, alternate installation kit (microphone) and AC Adaptor.

CAT. #3688-3.0 — TV EARS® 3.0

The 3.0 system works with most TVs and covers up to 600 sq. ft. The television volume can be lowered or muted without affecting the TV Ears volume. TV Ears headsets feature the patented Comply™ Foam TV Ears Tips, weigh only 1.6 oz and are designed to rest under the chin so it won't mess up your hair or get hot or uncomfortable, and will stay on when you're lying down.

- Self-mold with the ear
- Reduce background noise and providing unparalleled comfort and cleanliness.

System includes: 3.0 transmitter, headset with rechargeable battery, 6 ft. audio cord and AC adaptor.

CAT. #3678-C — BELLMAN & SYMFON® DOMINO CLASSIC

Bellman & Symfon Domino Classic is a revolutionary personal hearing system that uses digital state-of-the-art sound processing and wireless wideband technology to bring out speech in difficult listening situations.

- Delivers crystal-clear stereo sound, free from background noise and feedback with no risk of eavesdropping. Whether you only have trouble hearing from time to time or are already using a hearing device, it will make a big difference in your daily life.
- All features can be accessed with a single push of a button, eliminating complicated menus.
- **Maximum Control:** The receiver amplifies sound and sends it to your headphones, earphones or neckloop. From the receiver, you can easily control the functions of the two units.
- Choose Domino CLASSIC as your personal hearing system and discover how easily you can improve your hearing.

Includes: Transmitter Unit, Receiver Unit, Stereo earphones, Durable travel case, USB powered global charger kit, Rechargeable lithium-ion Batteries, Operating time up to 12 hour and User Manual.

CAT. #3678 — BELLMAN & SYMFON® DOMINO PRO

Bellman & Symfon Domino Pro is a revolutionary personal hearing system that uses digital state-of-the-art sound processing and wireless wideband technology to bring out speech in difficult listening situations: at home, work, school, in restaurants, in the car, while watching TV, etc.

- Designed both for non-hearing instrument users and hearing instrument users (with “T” position) and delivers crystal-clear stereo sound, free from background noise and feedback with no risk of eavesdropping.
- Range: 80 feet (25 meters) with amplification of 49 dB when used with stereo earphones.
- Unique combination of features: High-definition audio, Wireless secure encryption, Global frequency standard, Easy connect, Remote zoom. All features can be accessed with a single push of a button, eliminating complicated menus.
- **Maximum Control:** Speech is clarified and annoying background noise is significantly reduced. The transmitter sound is streamed over an encrypted wireless link to the receiver for listening with earbuds, headphones or neckloop/hearing instrument with t-coil. The transmitter also incorporates a stereo input for streaming high quality audio from your TV, MP3 player or stereo system. From the receiver, you can easily control the functions of the two units.

Includes: Transmitter, Receiver, Durable travel case, Omnidirectional and directional microphone in transmitter and receiver, Clothing clip, Cable kit (1.5m) with adapter from 3.5mm jack to RCA connectors for TV, stereo and MP3, USB global charger kit, Rechargeable batteries, Neck strap, Stereo in-earphones, Neckloop, 2.5mm and 3.5mm stereo jack.

CAT. #3340-M — WILLIAMS SOUND® MOTIVA ™ PFM 330 PERSONAL FM SYSTEM 16 CHANNEL SELECTABLE

The Motiva™ PFM 330 Personal FM System reduces background noise and maximizes listening by wirelessly broadcasting a speaker's voice, audio program or simultaneous mix for all participants to hear. It's ideal for classrooms, small group listening, employee training, consultations, or any environment where listening can be difficult.

- 16 selectable channels
- 72-76 MHz
- Auxiliary input -- broadcast any audio source
- FM signal, compression, mute control
- Operates up to 150' (46 m)
- Improves listening for individuals or groups

Includes: 1 receiver, 1 transmitter, 1 lapel microphone, 1 single mini earbud, 2 removable belt clips, 1 auxiliary input cable, 1 system carry case, 4 AA alkaline batteries

CAT. #3341-M — WILLIAMS SOUND® MOTIVA ™ PFM 360 PERSONAL FM SYSTEM 16 CHANNEL SELECTABLE

The Motiva™ PFM 360 Personal FM System reduces background noise and maximizes listening by wirelessly broadcasting a speaker's voice, audio program or simultaneous mix for all participants to hear. This system also features a receiver with a sensitive environmental microphone, giving the listener more flexibility on what they want to hear. By turning on the environmental mic, they can listen to a nearby classmate speak more clearly. Ideal for classrooms, small group listening, employee training, consultations, or any environment where listening can be difficult.

- 16 selectable channels
- 72-76 MHz
- Auxiliary input -- broadcast any audio source
- FM signal, compression, mute control
- Operates up to 150' (46 m)
- Improves listening for individuals or groups

CAT. #3727 — WILLIAMS SOUND® DIGI-WAVE PERSONAL COMMUNICATION SYSTEM

One-way, digital technology that makes it easier to hear in everyday situations by reducing background noise and compensating for poor room acoustics or distance from the sound source. Beneficial for an array of personal listening scenarios—from conversations around the coffee table to hearing every word of your favorite TV program.

- Crystal-clear audio with multiple channels available.
- Patented, interference-reduction technology provides seamless, secure operation.
- 2.4 GHz operation works well in RF saturated environments.
- Range of up to 100 feet outdoors/200 feet indoors (depending on environmental conditions).
- Legal for use in most countries.

CAT. #3691-377 — WILLIAMS SOUND® PPA 377 FM LISTENING SYSTEM

The Personal PPA® 377 ensures that people in your facility receive direct, clear communication of your message. Push-button menu controls make the system easy to set up and use. With professional sound features and an operating range of up to 1000 feet, the PPA 377 is ideal for large venues where superior coverage is essential. This complete turnkey solution includes four PPA Select receivers, each featuring seek-button channel selection with access to 17 pre-set wideband frequencies between 72-76 MHz. The system is expandable, accommodating any number of listeners. This system complies with 2010 ADA guidelines for hearing assistance.

- T35 professional transmitter.
- Up to 1000' operating range.
- LCD display, push-button menus.
- Microprocessor controlled.
- Accommodates any number of listeners.
- Adjustable power output.
- Combo XLR, ¼" TRS inputs.

System includes: 1 Transmitter, 4 PPA Select™ Receivers, 2 Neckloops, 4 Earphones, 1 Whip Antenna, 1 Audio Cable, 1 Power Supply, 1 ADA Wall Plaque, 8 AA Alkaline Batteries

NOTE: These Williams Sound Personal PA® FM Listening Systems (PPA 377 & PPA 377 Pro) are approved by the FCC for operation in U.S. markets. These systems cannot be used in all countries. Check with your government radio regulations for 72-76 MHz operation.

Disclaimer: FCC rules limit use of this equipment to auditory assistance.

CAT. #3691-PRO — WILLIAMS SOUND® PPA 377 PRO FM LISTENING SYSTEM

The Personal PPA® 377 PRO ensures people in your facility receive direct, clear communication of your message. Offers the same great features as the PPA 377 plus the convenience of a coaxial cable and rack panel kit for professional installation. Push-button menu controls make the system easy to set up and use. With professional sound features and an operating range of up to 1000 feet, the PPA 377 PRO is ideal for large venues where superior coverage is essential. This complete turnkey solution includes four PPA Select receivers, each featuring seek-button channel selection with access to 17 pre-set wideband frequencies between 72-76 MHz. The system is expandable, accommodating any number of listeners. This system complies with 2010 ADA guidelines for hearing assistance.

- T35 professional transmitter.

CAT. #3154 — CLARITY® AL10 ALERTMASTER™ VISUAL ALERTING SYSTEM

The Clarity AlertMaster™ line of products offers a Visual Alert System for the deaf or the hard of hearing. These devices keep the user aware of telephone calls and the doorbell, optional accessories can be added to alert you to audio alarms, a crying baby or the presence of an intruder.

STAY CONNECTED

- Sensors monitor the door bell and knocks on the door to alert you of visitors
- Alarm clock with snooze and vibrating alert features to wake the deepest of sleepers
- Monitors the specific sounds made by babies or young children

STAY SECURE

- The audio alarm monitor will notify you of any loud and unusual sounds.
- The motion detector will monitor a large area and notify you of any unexpected movement
- The security light control can be set to turn on or off lighting around the home at selected times

EASY TO USE

- Accessories allow you to customize the system for your specific household or needs
- Flashes a connected lamp with a built in lamp flasher for added notification
- A powerful vibrating alert shakes your bed or pillow to alert you when asleep
- Large, brightly lit icons and lights are sized and positioned for optimum visibility from all sides
- Distinct flashing patterns and backlit icons on unit help you distinguish between events
- Large, lit button to easily turn nearby lighting On or Off
- Large 3.5" clock display (measured diagonal)
- Compatible with existing/previous AlertMaster base units and accessories

SUPERIOR TECHNOLOGY.

- Adjustable display brightness
- Expand the AlertMaster system to accommodate multiple locations using one or more remote receivers
- Dual Power Backup keeps the system running when the power is out
- Send and receives pages from personal signalers (optional)

CAT. #3159 — ALERTMASTER™ AUDIO ALARM MONITOR

For use with the AL10 or AL12 Notification Systems. Notifies users of home audio alert, such as a timer or a fire, smoke or carbon monoxide detector.

CAT. #3158 — ALERTMASTER™ DOOR ANNOUNCER

For use with the AL10 or AL12 Notification Systems. Notifies user of an intercom, doorbell/chime or door knock.

CAT. #3745 — SERENE INNOVATIONS® CENTRALALERT™ WIRELESS NOTIFICATION SYSTEM

An all-in-one notification system for your home. It alerts you to all the daily sounds in your home such as alarm clock, door knocking, phone ringing, alarm sound from your audio alarms, warnings from your motion detectors and storm warning from your NOAA radio and more. It uses a bright built-in flasher, a selectable loud yet pleasant audible sound and a powerful bed shaker to alert you. There is no special installation needed for the CA360, and all operations are wireless.

- Responds to virtually any audio alarm including those with T3 or T4 alarm sounds.
- Latest 2.4 GHz Transmission Technology to ensure interference-free operations and full coverage of every corner of your home, operating range is 200 FT.
- Adjustable loud yet pleasant sound to alert you audibly.
- Powerful bed shaker (one included) to alert even the deepest sleepers.
- Alarm clock with dual alarm settings and dual bed shaker connections.
- Bright icons to let you know which alarm has gone off; bright display is easy to see across the room.
- Big and bright clock for easy viewing; it even adjusts its brightness automatically to a gentle level so it will not interfere with your sleep.
- Battery power back-up for full operation up to 48 hours in the event of power outage.
- A wide selection of affordable accessories (sold separately).

CAT. #3745-RR — CENTRALALERT™ REMOTE RECEIVER

- Lightweight and portable; stay informed anywhere in your home.
- Adjustable loud audio sound and bright flasher.
- Big and easy to see alerting icons.
- "Recall" button to check and review the last activated alert.
- Output jack for bed shaker to alert you at night.
- Universal AC adapter powered (100-240 VAC) with battery backup.

CAT. #3745-AA — AUDIO ALARM SENSOR

This sensor detects the alarm sounds of virtually all your audio, smoke, gas, and fire alarms, even the new alarms with T3 or T4 type alarm sounds, and sends a wireless signal to trigger the CA-360 to alert you. Install it next to your existing alarms for sound detection or connect it directly to your alarms for activation.

CAT. #3745-BC — REAL-TIME BABY CRY SENSOR

Hang your CA-DX on a doorknob and detect the vibrations from knocks on the door. It is ideal for hotel room or bedroom applications. Safe and secure since there is no visible part outside the door. It monitors the baby sound in real-time, it stops when the baby stops making noise with visual indicators for sound.

CAT. #3745-SWA — STORM WARNING ALERT MODEL CA-NOAA

This sensor detects the weather warning signals from your NOAA radio and sends a signal to trigger the CA360 to warn you.

CAT. #3745-DS — DOOR CHIME/INTERCOM/DOOR KNOCKING SENSOR

Install device on existing door chime or intercom door announcer for vibration detection. When someone rings your door bell, it detects vibration and sends a wireless signal to trigger the CA360 to alert. Or, you can attach the CA-DX to the inside surface of your door to detect the knocking on your door.

CAT. #3745-MD — MOTION DETECTOR (COMING SOON)*

The CA-MX detects the presence of any motion in the monitored area and sends a wireless signal to trigger the CA360 to alert you.

CAT. #3745-DH — DOOR HANGER AND CA-DX FOR HOTELS

Hang your CA-DX on a doorknob and detect the vibrations from knocks on the door. It is ideal for hotel room or bed room applications. Safe and secure since there is no visible part outside the door.

CAT. #3745-ED — EXTRA WIRELESS DOORBELL

The CA-DB is a weather resistant and easy to install door bell for your back or side doors.

CAT. #3745-EHB — SOS EMERGENCY BUTTON

Simply press the button to send a wireless signal to alert other family members in the home.

CAT. #3745-LF — LAMP FLASHER CONNECTOR

The CA-LX allows you to plug in a lamp as an additional flasher to notify you that your CA360 has been triggered.

CAT. #3745-BS — EXTRA BED SHAKER

The bed shaker wakes you up with strong vibration when the CA360 is triggered.

CAT. #3745-BAT — RECHARGEABLE BATTERIES

Heavy Duty Rechargeable Batteries for 48 hour power back-up, pack of 4 batteries.

CAT. #3673 — BELLMAN AND SYMFON® VISIT ALERTING SYSTEM

Bellman Visit is a cordless detection system that helps the hard of hearing, the deaf and others with hearing impairments to detect important signals and alarms. With the Bellman Visit, you will easily notice your doorbell, telephone, crying baby and fire alarm. All integrated into a well designed wireless system.

CAT. #3673-FR — FLASH RECEIVER

The flash receiver attracts attention with powerful, distinct flashes in different LED colors that indicate origin of signal. Can also directly connect to telephone. Portable and comes with a mounted table stand. An optional wall bracket is also available. Powered by AC w/ built-in back up rechargeable battery.

CAT. #3673-BT — BABY CRY TRANSMITTER

Wireless for ease of use, place standing up by baby. Activated by crying or screaming, it sends an alert to the Visit Receiver. Adjust sensitivity to fit your needs. Powered by two 1.5V batteries included. Battery life approximately one year.

CAT. # 3673-DT — DOORBELL TRANSMITTER

Fast and easy to install, place near doorbell or telephone intercom. Activated by both mechanical/ electronic doorbells, intercoms and telephones it sends signal to Visit receiver. Powered by one (1) 9-Volt that lasts 3-9 years.

#3673-BS — BED SHAKER

Put under the pillow to alert during sleep by clear vibrations for calls and alarms. Can be connected to the Portable or Flash Receiver, the Pager Charger or the Alarm Clock Receiver. Cable length approximately 6.5 feet.

CAT. #3673-SA — SMOKE ALARM TRANSMITTER

Mounts on the ceiling just like ordinary smoke alarms. Activated by smoke and sends a radio signal to the visit receiver. The alarm uses an optical detector. When used with the portable receiver it can be used on vacation. Powered by one 9V (I). Battery life approximately 1 year.

CAT. # 3673-PRX — PORTABLE RECEIVER

This portable receiver can go where ever you go all and receive signals from the various visit transmitters. Optimized sound frequency and an adjustable sound level from 0 dB to 90 dB. Turn light signal on or off. Powered by 4 1.5-Volt Batteries. Battery life is 2-3 years.

CAT. #3673-TT — TELEPHONE TRANSMITTER

This telephone transmitter helps one notice incoming telephone calls. Calls are alerted by the Visit receiver. Power supply is one 9V battery (included) and lasts 3-10 years.

CAT. #3673-P — PAGER RECEIVER

This pager receives signals from Visit transmitters alerting you to various alarms through a range of vibrations and light signals. By using this pager, you can walk freely in your home or garden and still receive alert signals. Small enough to put in your pocket. Powered by either a 1.5V battery (I) or a rechargeable battery (NI) and lasts approx. 1 month. Low battery indicator.

CAT. #3673-PC — PAGER CHARGER

Used to recharge the Visit Pager when powered by a rechargeable battery (NI). For alerting during night time, connect charger to Visit alarm clock or bed shaker. Power supply is equipped with adaptor and internal back-up battery to provide power in case of power failure..

CAT. #3534 — SONIC ALERT® DB100 WIRELESS DOORBELL SIGNALER
CAT. #3535 — SONIC ALERT® DB200 WIRELESS DOORBELL/TELEPHONE SIGNALER

The DB 100 doorbell signaler and the DB 200 doorbell/telephone signaler require no wires and can be installed in minutes. They are not triggered by sound, so annoying false alarms are a thing of the past. They both have a built-in outlet to flash an attached lamp which sends a signal to all Sonic Alert® remote receivers. The DB 200 has the additional feature of a telephone signaler by plugging phone cord into a telephone jack. Its low equivalent number does not draw any phone line power.

- Selectable number of flashes (5 or 10).
- Different flash code for front /rear door, or intercom (requires additional sensor, sold separately).
- Built-in chime for hearing members of the family (can be turned off).
- Use additional transmitters (up to four) to be alerted at other doors.

CAT. #2648 — SONIC ALERT® DS800 WIRED DOORBELL/TELEPHONE SIGNALER

The DS800 wired doorbell signaler is packed with the same features as the DB100 wireless doorbell signaler and requires simple wiring to work. The DS800 can be installed in a home with or without an existing doorbell system and comes with a doorbell button for homes without a doorbell system. This Signaler works with all Sonic Alert® Remote receivers.

CAT. #3571-75TV — SONIC ALERT® TELEPHONE RING SIGNALER W/LAMP AND VIDEO SIGNALER

This easy-to-use telephone ring signaler installs simply by plugging into an electrical outlet and a modular telephone jack. When the phone rings, a light plugged into the signaler will flash to alert you. Only one telephone signaler is required in a home. With a Sonic Alert® telephone signaler, you will never have to miss another phone call again! The Sonic Ring Video Phone Signaler has been designed to alert you to your videophone with a choice of three distinct flash patterns. Select a unique flash pattern for your telephone, TTY, fax or videophone with the flip of a switch. The sleek, modern case has a lamp on/off button to allow the lamp to be used for signaling and normal room lighting. The ingenious power cord with unique Pluglet (Plug-outlet) allows you to keep your table uncluttered by unsightly lamp cords. There is also an indicator light to remind you to turn on the attached lamp. In addition, its advanced design draws very little phone line power. The Sonic Ring Elite sends a signal to all Sonic Alert® remote receivers.

CAT. #3571 — SONIC ALERT® TR100 TELEPHONE RING SIGNALER

The Sonic Ringer Audible Telephone Signaler Model TR100 alerts you that your telephone is ringing by sounding a loud adjustable horn when the telephone rings The TR100 can flash lights and sound horns in other rooms by use of remote receivers.

CAT. #3571-A10 — SONIC ALERT® AMPLICALL 10 TELEPHONE RINGER/FLASHER

The Amplicall 10 has been designed to alert you to the ring of your telephone with an extra loud adjustable ringer and extremely bright LED flash strobe light.

- Extra Loud Ringer (95 dB).
- Battery Backup 4 AA Batteries.
- Low Battery Indicator.
- Adjustable Volume Control.
- Extra Bright Camera Flash LED.
- Multiple Tone and Ring Patterns.
- Wall Mountable; Table Stand Bracket.
- Phone Line Socket for Input/Output.
- 4 Alarm Options: Off,Flash+Alarm, Flash+Shaker, Alarm+Shake

#3571-A10	SA Amplicall 10 Telephone Ringer/Flasher

CAT. #2977 — SONIC ALERT® BC400 BABY CRY SOUND SIGNALER

The Baby Cry Sound Signaler, model BC 400 is a small, attractive unit that immediately alerts you when your baby starts crying. The BC 400 has an adjustable sensitivity control, and can be set to alert you to sounds as soft as a baby's whisper. Simply plug into any outlet in the baby's room. So your baby is not disturbed, no lamp flashes in the baby's room. When your baby cries, the BC 400 sends a signal over your home's electrical system to remote receivers via powerline transmission. The BC400 has a built-in indicator light to show you it's working. You need to use at least one remote receiver with the Baby Cry Sound Signaler. The most popular receiver is our Sonic Boom Alarm clock with built-in receiver. Also works with all audible devices, lamp & remote receivers.

CAT. #2813 — SONIC ALERT® USS360 UNIVERSAL SOUND SIGNALER

The Universal Sound Signaler has similar features found only in the Table Top Receiver with Lamp Flash and the Telephone and Video Signaler. With a lighted switch, the USS360 is a full functioning desktop signaler. It will alert you to any important sound - phone, telephone, kitchen timer, baby etc. The USS360 alerts you by flashing a lamp or light "ON and OFF" that is plugged into its "pluglet" as well as in other rooms where Sonic Alert® remote receivers are located.

CAT. #2635 — SONIC ALERT® SA101 REMOTE LIGHT SIGNALER

The newly redesigned Remote Light Signaler will alert you by flashing any attached lamp. The lamp plugged into the SA101 can only be used for signaling. It is ideal for use in kitchens, bathrooms, or anywhere an extra lamp is not needed for lighting. There is also an indicator light to remind you to turn on the attached lamp. A Super Shaker SS120V bed vibrator can also be plugged into the SA101.

CAT. #2636 — SONIC ALERT® SA201 DELUXE REMOTE RECEIVER

The Remote Light Signaler with its sleek, modern case will alert you by flashing any lamp that is plugged into its Pluglet (Plug-outlet). The Pluglet allows you to keep your table uncluttered by unsightly lamp cords. The signaling lamp can also be used for normal room lighting by using the lamp on/off switch. There is also an indicator light to remind you to turn on the attached lamp.

CAT. #3467 — SONIC ALERT® BLINK STROBE RECEIVER

The Sonic Blink, model BL 300 is the latest compact receiver and features a built-in, high intensity strobe light for signaling. The strobe light projects 360 degrees when flashing to eliminate blind spots. The Sonic Blink is perfect for places where a lamp is normally not used, such as in bathrooms, dining rooms and hallways. It can even be placed behind objects such as furniture.

CAT. #3708 — SAFEAWAKE™ SMOKE ALARM AID

Sleep peacefully at night knowing that you and your loved ones are protected in the event of a fire. Seconds count in a fire emergency, the SafeAwake device, senses a smoke alarm and instantly activates an intermittent, motor-driven bed shaker which vibrates the bed to wake the sleeper. The device combines two technologies: alarm recognition and intermittent signal generation to the bed shaker for awakening. In addition, the SafeAwake is also equipped with a speaker that emits a high-decibel, low frequency (520 Hz) audible alarm, and a flashing indicator light. Both operate with the bed shaker. which has been proven to be the most effective way to awake a sleeper.

CAT. #3675 — LIFETONE HL™
BEDSIDE FIRE ALARM/CLOCK WITH BED SHAKER

The Lifetone HL™ continuously monitors the environment for conventional smoke alarms that use the international evacuation T-3 pattern. It uses low multiple frequencies to awaken individuals with significant moderate to high frequency hearing loss, children and heavy sleepers in a fire emergency. Lifetone HL™ also functions as an everyday alarm clock.

- Emits a low frequency 520Hz square-wave sound pattern up to a 36% higher response rate than standard smoke alarms
- Broadcasts alarm of up to 90 dB at 3 feet and hears T-3 smoke alarms.
- Battery backup lasts 7 days while still providing emergency alarm signals; alerts to AC power loss and low or no battery.
